Tutorial

Assemble zipper pocket

Created By Sammy Valencia
www.shamballabags.com
With a strip of leather, faux leather or vinyl

1. Choose a Main Panel to install the pocket, right side up. Add the Zipper Strip, Right side up. Fix at the distance indicated by each pattern. Hold with double sided adhesive tape. Sew along the piece. (0.3 mm - 1/8” seam allowance). Cut a paper tape.

2. (Width 3/8 “- 1 cm) and place it well centered on the zipper strip, at the beginning and at the end there must be a space of 3/4” (2cm). You can also forget the tape and draw a rectangle instead.
3. Cut along the tape or rectangle to form the zipper channel.
4. Turn the piece upside down and cut the fabric that is behind the zipper strip.

5. Turn the zipper upside down. Hold with tape at each end.
6. Take the Pocket Piece, right side down. Place near the bottom edge of the Zipper Strip. Adjust with pins to prevent the piece from sliding.
7. Turn the Main Panel, right side up. Sew (1/8 – 0.3 mm approximately) along the white line.
8. Remove the pins. Move the pocket piece down.

9. Fold the piece up. Hold also with some pins to prevent the piece from sliding.
10. Turn the Main Panel, right side up. Sew along the white lines. (1/8 – 0.3 mm approximately)

11. Sew on both sides to close the pocket. (Black lines).
12. FINISHED
